Adios Leave Management System

Problem Statement

The current leave management process is manual and inefficient, requiring students to fill out physical forms and obtain multiple approvals from faculty, wardens, and parents. This involves excessive paperwork and delays, causing inconvenience for both students and staff. A streamlined, digital solution is needed to simplify and speed up the process.

Solution

Adios is leave management system software designed to streamline and simplify leave approvals

Features

- Online Leave Application
- Automated Approval Workflow
- Digital Signatures
- Parental Consent Integration
- Real Time Notifications
- Leave Status Tracking
- Centralised Leave Records

Stakeholders

- Students
- Parents
- Faculty Advisor
- Hostel Warden
- HOD
- Dean
- Academics

Existing System

Flee Outpass Portal

Leave Approved!

Thank You
